

## **The Appeal of the Participants of the Second Forum of Alumni and Trustees of KSU**

*The goals and objectives set in the address by the president of the Republic of Kazakhstan N.A. Nazarbayev “Strategy “Kazakhstan-2050”, the state program of industrial-innovative development of the Republic of Kazakhstan by 2015-2019 and some other program papers may not be attainable without development of the staff potentials. The head of the state poses a task in his speeches to strengthen the practice-oriented direction of the education and the focus of education programs on the labor market taking into account the dual system of*

*education.*

*The head of the state put forward a principle of the partnership as a basis of successful modernization of Kazakhstan. All the work must be based on close collaboration between the state, business and citizens.*

*The quality of the specialists training can reach the desired level only by the joint efforts “state-university-business”, besides the equal responsibility is the main factor of dual education!*

*Board of Alumni and Trustees of KSU created under the Akimat of Kostanay oblast has had some successes in this area. Public-private partnerships are developing, mechanism of engagement publicity and producers in the education management and training of competitive specialists are introduced.*

*We, the participants of the Forum of Alumni and Trustees of KSU, we have come to understand profoundly that social partnership is certainly important and we urge everyone to join efforts, focused on the training of specialists for state’s and regions’ economy.*

*We urge business organizations to commit to a process of the professional training of specialists in all its forms – from participation in the university corporate governance bodies till the formation of education program’s content and providing the base with the high-technology production.*

*The objective of each entrepreneur is to respond to the head of the state’s appeal and to contribute the enhancing a link “state-education-production”. The most important thing is to understand that we have an overall objectives and aims – prosperous and independent Kazakhstan.*

*The participants of the Forum are certain, that this Appeal will be positively accepted by the business community and will add the momentum to collaboration in the format “business-university”. It will allow to increase involvement of the employers in the process of a competent specialist formation for the conditions of the specific production.*
